

Fauxwood Blinds

Fauxwood blinds with real value, these award winning synthetic blinds come in a range of finishes including an authentic wood grain appearance.

ECONOMICAL

Designed to be a cinch to operate and to withstand the elements, including light, heat and moisture.

- Made from PVC-foam (PVC Synthetic) they are the perfect practical choice, easy to clean and hardened for toughness.
- Guaranteed against fading, warping, yellowing or bowing.
- All materials are lead free, V.O.C. free and without any harmful chemicals.
- Withstands industry-leading heat deflection temperatures.

STYLISH

QUALITY WORTH WAITING FOR

This smart and economical alternative to wood blinds has classic good looks that don't age.

- The finest materials and hardware components make tilting and raising/lowering a breeze.
- Bevelled bottom rail designed to roll with the slats as the blinds are closed.
- Custom-made quality feature – Ladders at a constant distance of 150mm from the edge of the blinds.
- Perfect match to our shutter range when the same colour finish is selected.
- Pull and tilt cords can be positioned on either the left or right side for easy access.

CHOICE FINISHES

- 2 slat widths – standard 50mm and shutter-like 63mm (unique to AMERICAN shutters)
- Our option of 2 valances are colour-coded to the same finish as the blinds to hide the head rail and frame the blind beautifully
- 4 solid colours and 13 woodgrain options
- A choice between our Privacy Blind option for superior closure, improved light block and privacy, and our traditional centre slot blind
