

Roller Screens

Invite fresh air, sunshine and views into your home with Roller Screens, and be spoilt for choice with the wide range of finishes and features on offer.

MAINTAIN YOUR VIEW

• ECO-FRIENDLY

AMERICAN shutters' roller screens are available in a choice of more than 150 fabrics and colours. Our fabric range is split into 5 categories:

1. Solar: Semi-transparent fabric for retained views, privacy and block out of as much as 90% of the sun's heat and glow
2. Designer: Attractive patterned fabrics for a designer look.
3. Sheer: See-through fabric that shows full view and creates a light and airy feel
4. Natural: A selection of more natural fibre fabrics.
5. Room Darkening: A zero-transparent fabric for light black-out.

Cleaning instructions

- Use a feather duster to remove dust.
- Use a soft cloth or sponge with a mild soap and water solution to clean.
- The screen needs to be completely dry before rolling.
- No abrasive or harsh cleansers should be used as these can damage the screen.

FEATURES AND FINISHES

- AMERICAN shutters' Roller Screens are available in a variety of cover / fascia options; from square or rounded fascias to fully enclosed systems that conceal the fabric roll and hereby offer a clean modern look.
- We have a range of privacy levels from 0% to 12% transparency. The more transparent fabrics offer visibility of the outdoors while protecting the interior from harmful UV rays.
- Easy to clean and maintain

Selection of different systems:

- Cord loop – traditional chain operated screen
- Cordless – concealed mechanism operated by simply pulling down or pushing up the screen
- Motorised – with remote for either mains or battery pack
- Child-safe – cordless operation
