

# Wooden Slat Blinds

Perfect partner to any shutter range, our highly customisable Wooden Slat Blinds are unmatched on the South African market.

## SHUTTER-LIKE SLAT WIDTH

## CUSTOM-MADE

### SUSTAINABLE MATERIAL FOR SUSTAINED STYLE

Our Wooden Slat Blinds are manufactured from the hardwood of the Kiri tree.

- One of the most sustainable and fastest growing tree species. Sawn Kiri wood timber can be harvested in less than 10 years, after which a new tree can grow from the original stump.
- Known to have one of the highest strength to weight ratios.
- Free of volatile oils and low in resin, making it one of the most fire retardant timbers.
- Is naturally resistant to rotting, decay and borer beetles.
- Dimensionally stable over long slat lengths.

### QUALITY WORTH WAITING FOR

Manufactured and installed to best practice European and American quality standards.

- Only the finest materials and hardware components used.
- Quarter sawn slats, for higher dimensional stability to resist cupping, twisting and warping.
- Bevelled bottom rail designed to roll with the slats as the blinds are closed.
- As many as three drops on a single head rail.
- Custom-made quality feature - ladders at a constant distance of 150mm from the edge of the blinds.
- Colour-coded head rails in a choice of brushed aluminium or steel.

### CHOICE FINISHES

- 2 slat widths – standard 50mm and shutter-like 63mm (unique to AMERICAN shutters)
- 6 valance options to match and frame the blinds beautifully
- Option of cloth or decorative tape to cover the ladders
- Pull and tilt cords can be positioned on either the left or right side for easy access.
- The largest colour range on the market with a palette of 30 stains and colours.
- Privacy Blind option for superior closure, improving light block and privacy
